

## Instructions for migration from old to new mobile token for existing users and activation of the new mToken for new users - iOS

	1. Allow the application to send notifications if you want to enable the authorization of online payment card transactions.	1a. mToken setup.
<p><b>EXISTING USERS:</b> If you are already an mToken user, download the new POBA mToken application from the App Store, install and run it. Follow the instructions under number 1.</p> <p><b>NEW USERS:</b> If you are a new mToken user, download the new POBA mToken application from the App Store, install and run it. Follow the instructions under number 2.</p>	 A screenshot of an iOS notification permission dialog. The background is a solid orange color. In the center, there is a white rounded rectangle containing the text: "POBA m_Token" Would Like to Send You Notifications. Below this, in smaller text, it says: "Notifications may include alerts, sounds and icon badges. These can be configured in Settings." At the bottom of the white box are two buttons: "Don't Allow" and "Allow". At the bottom of the orange background, there is a white logo for "PODRAVSKA BANKA".	 The mToken application logo, which consists of a white square icon with a stylized 'm' and 'T' inside, set against an orange square background. Below the icon, the word "mToken" is written in white lowercase letters. <p><b>mToken application setup</b></p> <p>To access the mToken application, follow these steps:</p> <ol style="list-style-type: none"><li>1) Enter the PIN you are using to access the old mToken version.</li><li>2) Enter the PIN you will be using to log into the new mToken.</li><li>3) Re-enter the PIN from step 2.</li></ol> <p>If your mobile device supports biometric authentication (fingerprint reader or face recognition), you can set up this option in Settings.</p>  A solid orange rectangular button with the word "Start" written in white text in the center.
